

DEAR APPLICANT!

From 1989 to the present day, the Faculty of Oriental Studies of Al-Farabi KazNU has trained many highly qualified specialists who deeply study the language, culture, traditions, political views, national values, as well as the philosophy of the countries of the East.

Diplomatic, political, trade, economic, cultural and spiritual ties of our independent state with eastern countries are strengthening every day. These ties should contribute to the economic and technological prosperity of our country. Guided by this idea, we understand the special importance of studying the language, tradition, mores, culture and literature of countries such as China, Japan, Korea, India, as well as Arab countries where science and education are highly developed. And in this regard, the demand for specialists with professional knowledge of oriental languages, as well as culture and traditions of the countries of the East, is naturally growing. Studying the language, culture, history and politics, as well as the philosophy of the countries of the East really opens up a great opportunity not only for the development of our society, but also brings material and spiritual enrichment in your life.

Dear Applicant! If you want to be helpful to your parents, relatives and friends, our country, then come to us! Take the first conscious step to achieve your goal, and we will provide comprehensive support and give you the right direction!
