## FACULTY REVIEWS

When I finished school with the “Altyn Belgi” (gold medal) award, I had a great choice. It was a specialty choice. So, it was necessary to choose a university where I could get knowledge. I analyzed, thought a lot, and as a result, I realized that KazNU was the only worthy university. Entered the Law Faculty and became the owner of a state grant.

There are four departments, which are working productively at the Faculty. After three years of study, I firmly decided to master the basics of civil law and now I study in depth the disciplines of the Department of Civil Law and Civil Procedure, Labor law. The most interesting thing is that all the lectures and seminars are held not only on the basis of theory, but everyday practical cases are also considered and analyzed.

The student life of the Faculty is very rich, bright. As a real student of the Faculty, taking an active part in faculty activities, now I hold the position of Student Dean of the Faculty of Law. I believe that this post will help me not only to become an academically successful student, but also to become a person and find my place in society.

Therefore, student years at the Faculty of Law are memories for a lifetime!

In my opinion, Almaty is one of the most beautiful cities in the world. There are the best institutions of higher education and indescribable nature. Before entering, I carefully studied all the universities that are on the list of the best in the world, and I realized that KazNU is mine! Here I gained not only solid knowledge and valuable professional qualities, but also received a truly university education. Here I feel at home, people are all kind and hospitable. I am very happy that I made this choice!
